MODEL QAP14-FG

ASCALE STYLES

IMPERIA BLACK (IB)

A basal-tine rock is of volcanic origin created from rapidly cooled lava. This stone presents a salt and pepper design which is ideal for functional work surfaces.

Because of the exceptional mineral properties, Imperia Black is suitable for both indoor and outdoor applications. The dark finish can bring any space a touch of luxury.

This product offers it self to multiple uses in a space due to the continuity of each piece and because it's a calm, elegant and quiet stone. Essentially a single color, it still features the nuances of natural stone.

TORANO STATUARIO (TS)

Without a doubt one of ASCALE's most popular styles. The Statuario marble is an precious rock of Italian origin that is identified by its light colour and by its grayish veins, very homogeneous, with very fine and parallel lines.

Due to its mineral properties and its natural beauty, it is very appreciated in architecture and as a aesthetic in any application

Not uncommon that it is used in interiors, bathrooms, decoration, cladding and even flooring.

COSMOPOLITA GREY (CG)

Worktops with cement style finishes are extremely popular products for busy, practical and outdoor spaces that need balance and sobriety in their designs. This type of finish fosters a feeling of continuity in any space

Cosmopolita Grey is extensively used in urban and industrial-inspired interior designs for homes.

Plus, the gray finish can make any space look instantly more elegant.
